

So, you think we should HAVE to listen to "regular" radio- with its inane, useless chit-chat. Not to mention its obscene talk (hiding under the Free Speech umbrella- that's a whole other conversation..)
I can get more useful information from XM in 5 minutes than by wading through 20 minutes of useless talk and awful commercials on commercial radio.

Please do not come down (again) on the side of the ones with the powerful lobbyists.
