

I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear, I feel that if they do so they are directly infringing on my right to free speech, and to choose what I want to listen to. I pay for the privilege of not being limited to listening to commercial radio. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve, and choose to pay for.
