

I am a small independent Cable TV operator. Im tired of seeing this industry ran over by the NAB. They have lobied for restrictions that, in our rual community, are impossable to impliment and not nessary. Now we see them trying to walk over our rights as consummers to chouse our provider of basic news and information.

I am an American, I am a Tax Payer, I have freedoms and libertys and I as an American Tax Payer am loosing my freedoms and Libertys to big special intrest groups day after day. MY liberty is at stake here.

Also at stake is free enterprise. The FCC must not interfer with free enterprise or we will never see improvement in the local broadcast industry.. they must step up and meet the chalanges of competation
