Dear Ms. Dortch:

On Friday, June 4, 2004, Mark Pagon, CEO of Pegasus Communications (“Pegasus”), Cheryl Crate, Vice President of Pegasus, and I, a consultant to the company had a conference call with Ken Ferree, Barbara Esbin and Deborah Klein of the Media Bureau. In the call, we explained the circumstances that precipitated the Chapter 11 filing regarding certain subsidiaries of Pegasus, including practices employed by DirecTV to separate Pegasus customers from Pegasus. We explained that the circumstances leading up to the filing did not affect the status of any Pegasus pleadings before the Bureau, but that we believed that decisions on those filings should be informed by the latest developments.

Very truly yours,
