Dear Mr. Follett:

This letter is in response to the Petition for Rule Making you filed requesting the reservation of vacant Channel 258A at Midland, Maryland for noncommercial educational ("NCE") use.

The Commission has revised the standards for reserving an FM channel for NCE use.¹ Under these revised standards, a reservation proponent must demonstrate that it is technically precluded from using a reserved channel and would provide a first and/or second NCE radio service to at least 10 percent of the population within the 1mV/m (60dBu) contour of its proposed station. This revised reservation policy was later extended to existing vacant FM allotments for which an allocation proceeding was initiated prior to the effective date of these standards.² To implement the revised reservation policy, the Media Bureau opened a filing window to permit interested parties to file a petition for rulemaking in compliance with the revised reservation policy and with the submission of a complete technical preclusion showing.³

A staff engineering analysis reveals that your petition is unacceptable for consideration. Specifically, reserving the allotment for NCE use would not provide a first or second NCE radio service to at least 10 percent of the population within the proposed service area. Therefore, we find that the reservation of vacant Channel 258A at Midland for NCE use is unwarranted.

In view of the above, we are returning your petition for rule making.

Sincerely,

John A. Karousos
Assistant Chief, Audio Division
