

As a small radio station in a rural part of Louisiana I support the NAB's petition regarding Satellite Radio. We provide a voice to our community topics ranging from tornadoes to football games. We represent the families of the local military in such ways as collecting items for those serving overseas, to serving as their official voice when they were deployed. We help raise money for the American Cancer Society..announce fund raisers for the Lions Club to support their flag fund. Satellite radio will not serve the people of our small area..If they are allowed to do what they are proposing, I could very well lose my business and our area would lose its voice. Please support the petition presented by the NAB.
