Re: MB Docket No. 04-160

Dear Ms. Dortch:

We totally support the NAB Petition. XM Radio and Sirius would break their promises that their service would be national only. Today, it is vital that local stations like ourselves, provide local news and community updates. We have provided these services because we care and have become involved in our communities. Our station has an identity here in our communities. Not only do we provide local news and weather, but provide many public service announcements. The community can attach faces with our station. We also spend many hours volunteering with non profit organizations for our communities. XM and Sirius would never be able to commit to those kinds of services to the local communities they want to reach.

In filing for ownership of our license over ten years ago, community involvement was at the top of the priority list in order to get the license. Let us continue to provide the good service we do to our communities and let XM and Sirius provide a different need and not overlap into ours.

Sincerely,

A handwritten signature in cursive script, appearing to read "Sherrie McCullough".
