

Sir,

I just put a one month phone block on "Telepoint" (856) 627-1792 with my local carrier Cox. Telepoint is calling every hour or two with a record message. Telepoint claims to be a government agency and is not subject to the new "no call" FCC rules.

If this is a government agency, they our wasting our tax money, because when I try to call them to stop the harasing calls . . . you get a recording or dead air!

In any case I want them to stop calling my home. I am paying Cox to block their calls for the next month. Frankly, I do not think I should have to pay \$3 to a month to stop these idiots.

I appreciate your help.

Thank you,
James "Randy" Hobbs
