

This is a total waste of time. I have been an amatuer radio operator playing by the FCC's rules and regulations for the better part of 25 years. For you to be even considering such a spectrum destroying mode of communication makes the FCC even less in control of the airwaves. We count on the FCC to protect the bands NOT TO APPROVE THE DESTRUCTION OF SAME.

yOU WANT TO WORK ON SOMETHING, GET THE INTERNET TO MY LAPTOP VIA RADIO FASTER AND SEE WHAT YOU CAN DO ABOUT IT NOT COSTING ME MINUTES ON MY CELL PHONES.

Continue your good work. Shutdown this BPL BS.

Best regards,

R. Gray
