

KVSA, on the air for over 50 years, has maintained it's strict moral code to serve all ages with the best of radio. We have closely monitored our music and programming to prohibit the airing of profanity and indecency. This proposal would penalize us in spite of our efforts to do responsible broadcasting. Also this additional cost would place a huge financial burden on us as we are located in one of the most economically depressed areas in the country.

Joyce Kinney

President and General Manager
