

I believe that the liberal bias of our major television stations should be stopped. The stories by Dan Rather against the President were awful and lies. I received this e-mail because the Liberals thought that it was wrong that Sinclair was going to run a documentary from the Swift Vets. At least this is a true documentary and is not using forged documents. I really hope that the FCC does not give in to the Liberals. Our media should be free to reflect both sides, not just the side that the Liberals approve of.
