

Please intervene in Sinclair Broadcasting Co.'s announced plan to air the blatantly anti-Kerry documentary program, without provision for equal time and timely opportunity for Democratic Party rebuttal. You know that this kind of programming is not legally allowable, and you know that the eyes of the world are on the upcoming U.S. election. If the greatest democracy in the world can't "play fair", what can we expect of other countries? Without citizen trust, the U.S. government will fall. The laws do not allow you to let this program be aired as planned -- and your conscience should determine your course of action. Thank you for upholding just government, of the people, by the people, and for the people.
