

I am shock that the FCC would allow Sinclair broadcasting to use public airwaves for free to show, Stolen Honor, the one sided documentary about John Kerry. Please do not allow your stations to air this program. As an American I rely on you to be fair on how our public airwaves are used. If you are going to let this happen at least air the program Going Up River to give the public two views of Mr. Kerry. Remember you are responsible to protect our democracy and by allowing biased information to pass as news really defeats the public honor you are trusted with. Shame on you if you fall to the pressure of one interest group. Sincerely
Kathleen Williams-Miller
