

I would like to emphasise my desire that you do not allow the Low Power FM Broadcast service (LPFM) to encroach or effect the K-LOVE FM service that I support and listen to. K-Love is truly the only radio service in many areas that serves the needs of the downcast and needy by providing a beacon of hope with its message and a point of contact for people to call in for spiritual and many times physical help. Again Please do not allow (LPFM) to take priority over the FM translators that carry K-LOVE.
