

Please keep Air 1 on the air. This music station is incredibly encouraging to my family which consists of 2 teenage boys. It is the only radio station that has truly positive music without the prevalent swearing, sexual and violent references that all other mainstream radio stations have. Due to the type of songs that Air 1 chooses for its playlists, one can be in the car, at work or on-line and receive uplifting music all day long. It's the only place I know of where I can actually take a break from listening to the negativity that the world has to offer. I start my day every day, listening to this music and it always puts me in a good mood. When I see other cars on the road with an Air 1 bumper sticker, I feel connected to them in that we share a love for this music and the message behind it. Please continue to keep Air 1 on the air without interruption of service. Please keep this station from being affected by your LPFM stations. The world is a better place and a place of respite with Air 1 in it. Thanks for considering this as you make your decision.
