

I think it is wonderful that sinclair is doing this, It is getting the truth out there and a right to the american people. I think that it is not for Bush but I believe that as long as the facts check out and it isn't made of lies they should be able to air it and if someone has a completely true film on Bush then they can do that too. But any thing that is played against either canidate should be found true and balanced. Thank you for you time.
