

There are many types of music stations out there but very few of them are contemporary christian music stations. K-LOVE is definitely a step above the "normal" christian station in that it is a quality production, as good or better than most "secular" stations. To dismiss it off the air would leave us without a family-safe station that anyone can feel free to have on & be encouraged & uplifted. There are enough stations out there that provide a constant flow of negative & degrading comments, music & programs. We NEED to keep K-LOVE on the air so that there is a place to go & listen that is a release from the stress & pressures we all experience in our hectic lives. If you check their records there are many depressed & suicidal people that have even been helped & now live a more productive life because of the support-call program K-LOVE provides. You don't want to be responsible in denying our community of such an incredibly needed service like that now do you? Thank you for this opportunity to be able to support something I find so important on a day-to-day basis.
