

Recent events regarding Sinclair Broadcasting Group has caused me great concern. The stifling of 'Nightline' and the showing of this 'attackumentary' 'Stolen Honor' is a misuse of the airwaves and an abuse of the public trust.

There are obvious actions that citizens can take in the market place to correct their behavior. That should not be our job. The failure of the FCC in this regard is outrageous and inexcusable.

To be loyal to agenda of the administration you serve is admirable. To place that above your duty to the American people is abhorrent.

This needs to be corrected, and one way or another, it will be.
