

This is a request to keep K-LOVE on the air. They will be affected by the LPFM proposition. K-LOVE serves me and my community by offering positive and encouraging words, music and programs. There are no other services like this offered locally so to take it off air would decrease this positive energy being offered to the community. I believe that this service is needed for public interest since we are constantly surrounded by negativity - it is refreshing and supportive to have the positive words. Thank you. yvonne cropp
