Re: Ex Parte Notice

Amendment of Part 22 of the Commission's Rules to Benefit the
Consumers of Air-Ground Telecommunications Services
WT Docket No. 03-103

Dear Ms. Dortch:

On October 19, 2004, Gerald Knobloch, President and Chief Executive Officer of Space Data Corporation ("Space Data"), and Jennifer L. Kostyu and the undersigned of Morrison & Foerster LLP, on behalf of Space Data, spoke with Sheryl Wilkerson, Legal Advisor to Chairman Powell, by telephone regarding the above-referenced proceeding.

Space Data's representatives explained how high altitude stratospheric platforms are ideally suited for providing air-to-ground ("ATG") services. The parties discussed various licensing approaches that have been proposed for the ATG spectrum band. Space Data explained why the FCC staff's proposal to assign two exclusive licenses, rather than overlapping licenses, would best serve the public interest and the development of the ATG market. Space Data presented an alternative licensing proposal that would allow the market to decide through a combinatorial bidding auction whether an exclusive or shared licensing scheme provides the highest and best use of the ATG spectrum. Space Data also relied upon the arguments set forth in the attached PowerPoint presentation during the call.
