

I want to express my concern on the matter of taking K-Love off of the air. It is the only local station that plays christian music, which you don't have to censor for your children. It's message is always uplifting, and this community needs more of that. We do not need anymore rock and roll, country, R&B, etc filling our ears with violent messages, sexual content or inappropriate language. It is in our communities best interest to keep K-Love on air, as it keeps churches connected, Christian concerts scheduled, announces a schedule of community activities, and allows you to listen to clean, upbeat music at home, in the car or office. Please don't take that away. Sincerely, Tamara Hudson
