

K-Love is the only radio station I and many others in my area listen to. It allows those of us who choose not to listen to secular music a place to go and listen to quality music without commercial interruption and there is no need for censoring, because what is broadcast on K-Love is for the whole family. I and many other listeners donate \$40.00 or more a month to be able to keep K-Love on the air. How many people do you think would do this for their regular FM stations? Not many. K-Love is a radio station where people can hear about the Lord and how he can help in your life. It has helped many people get back on the right track and back into a healthy, functioning life. I believe you would be doing many people a disservice by taking K-Love and stations like it off the air.
