

We are not in favor of letting LPFM stations take priority over current FM translator services. We feel that we would lose valuable stations such as K-LOVE that we truly enjoy. K-LOVE is an important part of our day and serves us well in our local community. It would not be fair to force them off the air in favor of this new broadcast service. K-LOVE is important in our community because it plays Christian music that is not readily available on other stations. It is music that is enjoyed not only by us as adults, but also by our children. Thank you for your time. Steve and Lisa Serbus Wyoming, Minnesota
