

I listen to K-LOVE on the radio every day for approximately two hours. Besides the Christian music, they provide updates on local events. If K-LOVE were to be taken away from our radio options, we would have to find another way to be informed. In addition, events that depend on the radio medium for success would probably fail. K-LOVE is entertaining, uplifting and informing for every listener, not just Christians. I've heard direct personal testimonies from listeners who became Christians after listening to the radio station consistently. K-LOVE provides a calm and encouraging voice to the entire public. Please allow us to keep K-LOVE as an option on our radio dial. Thanks for your consideration
