

It is important to me that I be able to hear K-LOVE radio when I am travelling in the country. If LPFM is imposed then all the translators that they use will have to be shut down and I will not have access to the station when travelling in areas where reception would not normally be had from the main station. This type of listening is important to me as I travel for visits in as much as I also make CD's for my church and I use K-LOVE to hear the latest music from all artists that may be helpful to our church and its outreach to the community. It is not fair and could be determined to be discrimination on your part. I don't believe that President Bush would approve such a move based on what he has stated to be his beliefs. The stations that would take over would not necessarily be of the same values therefore there would be a continuous deterioration of our society. It is bad enough that we have to worry about terrorists doing terrible things to this country without having to worry about some group from within doing a similar job , but without the bombs or similar devices. It would be greatly appreciated if this idea would simply die for the lack of support. The message that K-LOVE puts out is one that had helped many people understand more about God and reinforces what they hear in church. Thank you for your time and God Bless.
