

I am writing to make a plea for the K-love radio station. K-LOVE serves me and many others of the San Antonio, TX community by providing encouraging music, encouragement, prayer and much more on a daily basis. K-LOVE helped lift my spirits in the morning during my first year of teaching last year when I so desperately wanted to simply quit my job. San Antonio would be negatively affected if it were to be displaced by an LPFM broadcaster providing other programming. Christians would lose a great chance to bring others to Christ. Many people would lose their daily source of encouragement. Many families with young children would lose a radio station that has beautiful and fun music with a positive and uplifting message, unlike most radio stations today. I strongly believe K-LOVE is in the public interest because of its many positive characteristics. It provides an incredibly uplifting message of encouragement and hope that all people could benefit from hearing!!!
