

This is in reference to MB Docket No. 04-233. It has come to my attention that you are considering replacing FM translator service with LPFM. One station that I love to listen to is K-Love and it is heard through an FM translator. K-Love is a great benefit to me. It is radio that I don't have to censor for my children, it has no commercials and blesses me while I listen. I don't have to listen to the current political ads that are being aired and I have to fear that my kids will hear news or radio announcers that would adversely affect their impressionable minds. If you were to take K-Love off the air, others like me would not be able to benefit from listening to positive music and we would be subjected to whatever radio is out there, not what we really desire to hear. Music plays such a vital role in our lives that the community can't help but be affected by a positive station being taken off the air. If you replaced K-Love with a LPFM station then the whole community will lose a source of entertainment that is safe for whole families to listen too. K-Love provides wholesome entertainment, positive music and encouragement to people in all walks of life. Please don't take that away from us! Why punish us (the people in the community) by taking away music that doesn't slander anyone and uses no foul language or questionable lyrics? Take another station off the air that has all of those above things and replace IT with LPFM.
