

Air 1 serves my music needs in the community that I live. It is either on the radio or on the internet in my community. The effect that LPFM would have on Air 1 would be a negative one. In my opinion would be unjust. Air1 is a station that encourages people with positive thinking such as to get rid of drugs, take care of their families and love them with all their hearts. It is not like other stations where these things are not even mentioned. Thus, Air1 is a soul saver. Please don't take them off the air. Thank you.
