

I listen to the K-LOVE radio station at work, in the car and at home. I love the encouraging news, songs and voices that I hear everyday. In the world of TV news and the printed news, there is mostly bad news reported. Very seldom is there a whole show or newspaper dedicated to the good people do and how to encourage others to best their best.

Please do not allow the new LPFM stations to override the current FM stations. That would be an infringement on my rights to listen to whatever I want to hear on the public radio stations.

K-LOVE offers many wonderful opportunities for my community to advertise their local events and happenings. From the schools to the churches and even my Scouting activities.

Please keep my K-LOVE radio station available to me!!

Susan Thompson
