

Please leave KLOVE alone.

Don't change the way we listen to our Christian music. There should be no changes made to a station like KLOVE that is reaching out and sending GOD's word. We do not need the FCC doing anything more than paying closer attention to the trash that is coming across the other stations. The Howard Stern's of the world are infiltrating the minds of our young people today and corrupting them. Let's leave KLOVE alone
