

I listen to K-LOVE radio station every day. Not only do I get the music, but I receive news and other info. This is the only Contemporary Christian music station available in my area. I support K-LOVE financially every month. There are many people in my community, friends, and family members that also listen. This is a positive radio station. I can turn on this station and not have to worry about listening to anything that is offensive to me. This radio station also goes around the world and it communicates good values. We need this in our society today. I don't listen to other radio stations because I don't want to hear anything relating to sex or the like. That's all I find anywhere else. Please keep this available for people like me. I don't mind supporting K-LOVE. Please keep this option available for us. Thank you.
