

Hi, My name is Gerry Katzman. I have been on CBS, NBC, the WB, FX, and FOX as an actor and on-camera broadcaster.

I was also a radio DJ for years and continue to DJ live in my local market.

I listen almost exclusively to local radio as it offers hand-picked non corporate music. And the news is local too!

Please do whatever it takes to stop mass media consolidation of radio and maintain the creative spark that exists only on the local level.

Get rid of pay for play in all its forms.

Stop runaway voice tracking.

No more national playlists.

Great job, more LPFM stations!

Thanks for stopping media consolidation that is killing the very lifeblood of society and making our news and music into one big homogenized stew of mediocre music and content. Many Thanks, Gerry K.
