

Dear Sirs: My name is Colin Peter Palmer, and I am a Musician (StarsOf Colin Creative Music and Broadcaster (Skyshadow Broadcast Network).

I thank you much for giving me the opportunity to voice my opinion regarding Localism.

As an artist, I know firsthand how difficult it is to get airplay, commercial and otherwise. The rules regarding how songs are selected for airplay is as prohibitive as it is impossible. My songs never got aired thanks to the misuse of deregulation which I have no doubt was meant to serve the common good.

1.This frustration lead me to start my own broadcasting service to help gain exposure for not only my own recordings and artists, but also those equally qualified recordings of my fellow artists, with a double aim of providing quality entertainment that would definitely please the tastebuds of our listening community to whom we owe so much.

My personal/primary playlist (Songs Of Colin Creative Music Vol.1 (<http://www.audiolunchbox.com/album?a=2508>)are as follows:

A Million Ways To Love
(I`m Nothing) Without you
My Favorite Word
Picture On The Wall
Time Will Tell
Flying
You Keep Writing Me Letters
Wake Me Up/ Turn Me On
DreamLover`s Game
Can`t Make Love Without Love

To this end, it is my fervent hope that Low Powered Frequency Radio be made available for our usage as it would serve as our launching pad that would enable us to help set exemplary broadcasting standards for all to follow.

I thank you so much for your time and urgent consideration.

Sincerely,

Colin Palmer
