

I listen to Air 1 (98.7 & 89.1 FM) on a daily basis. It allows me to worship anytime I want everywhere I go. I have introduced many people to this radio station and all have been so grateful and happy to have it in our area. It is one of the few radio stations that offers clean, wholesome, positive music. I am so tired of having to deal with smut on television and on the radio, being bombarded with sex, violence, drugs, alcohol, etc. that it is nice to know that I have one area where I don't have to know worry about offensive material being exposed to me. I choose to live a moral life and I am grateful that there is at least one thing that agrees with me. For Air 1 to be replaced by a LPFM station would be very upsetting. I seriously doubt that there would be a station, which does not receive any government funding to stay on air, that would provide what Air 1 provides to me, my friends, my family and my community. Thank you for your time. Rachel Fadden
