

K-LOVE is the most enjoyable part of my drive to work every day and any time I'm in the car I choose this station. I never lose it when I drive out of other Stations' range. We are lacking in the type of positive uplifting programming the K-LOVE provides. We hear about many things that are not included in the regular news and we get to hear great Christian music, comments that are family oriented from great men and women interested in building character and in strengthening families and individuals.
