

The presence of KLOVE which is broadcast from the west coast is an important part of our daily lives. There are times that other stations take over the radiowaves even now and it is frustrating. This is a connection we share with family and friends who live nationwide. This station (90.7) has brought salvations and rededications to many in the Hampton Roads area including our own family. Please do not remove this uplifting station from our capability from hearing it. It is a constant reminder of how much the Lord loves us and the Holy Spirit ministers to thousands who are listening. In my opinion there is not a local station that can take its place.
