

K-Love helps me with my daily life to grow spiritually with God. As a resident of Houston, I worry the effect brought on to my community as well as regional/national communities would be negative, considering that K-Love (as well as others) Positive and Encouraging music would no longer be broadcasted. K-LOVE is a regional and national broadcaster and to be displaced by an LPFM broadcaster providing other programming. If the FCC decides to go with the plan, it would not be to the public interest, and of negative effect. K-Love radio station, (as well as others), will not be able to broadcast positive music nationally and regionally, listeners will be taken a few spiritual steps away from God.
