

* KLOVE fills me with hope and gives me positive outlook in life. When I get depressed, KLOVE brings me joy and reminds me of my focus here on earth is to look to Jesus.

*It would be awful for our community to not have KLOVE. This type of radio station is what our society needs, not those radio stations that are filled with negativity, language, disgrace and sexual connotations.

*Klove's service is for public interest because of its up lifting music to bring contentment and hope even if one is not a believer in Jesus. I have turned so many friends and relatives to KLOVE in Arizona and they have told me how much it has meant to them. Now I live in California and although I don't get KLOVE, I prayed and our community has KLIFE. Our nation and world needs radio stations like KLOVE and KLIFE, please don't take them away.
