

I would like to complain about one simple thing, this organization. I would like to complain that you are all infringing on our rights, and it is now that I am ashamed of what this country has become. You people are fining broadcasters left and right, it just has to stop. It is absurd what you do to protect your so called 'decency'. I was shocked and APPALLED at the fact that stations were fearful to play SAVING PRIVATE RYAN on veterans day. A movie honoring such brave and heroic men who fought and died so we could have 'free speech' only to have this right infringed on by you. I hope you stop with this ridiculous indecency bussiness and find something more productive to do. Ya know theres starving children in Africa that could use your help. Go 'help' them too why don't ya!
