Re: WT Docket No. 01-309

Dear Ms. Dortch:

This is to update the Federal Communications Commission (“Commission”) on the Alliance for Telecommunications Industry Solutions (“ATIS”) Incubator Solutions Program #4 (“AISP.4-HAC” or “Incubator”).

On Wednesday, November 17, 2004, AISP.4-HAC submitted its Second Status Report regarding the wireless industry’s hearing aid compliance efforts. This report was filed pursuant to the reporting requirements adopted by the Commission in its August 14, 2003 Report and Order in WT Docket No. 01-309, and submitted on behalf of the members of the AISP.4-HAC.

At the time of the report, the Incubator included participation by thirty-three (33) wireless equipment manufacturers and service providers. One of those wireless equipment manufacturers, LG Electronics MobileComm USA, Inc., was inadvertently not named as a member of the AISP.4-HAC in the report. Therefore, attached please find an updated industry status report table and an updated list of AISP.4-HAC members.

Should you have any questions, please contact me at 202-434-8847.

Respectfully,
Megan L. Campbell
