**COMMENTS OF THE WIRELESS COMMUNICATIONS ASSOCIATION
INTERNATIONAL, INC.**

The Wireless Communications Association International, Inc. (“WCA”), by its counsel and pursuant to Section 1.405(a) of the Commission’s Rules, hereby submits these comments to reaffirm its support for the amendment of certain Part 15 technical rules relating to operation of wireless facilities in the license-exempt 57-64 GHz band, as set forth in WCA’s Petition for Rulemaking in this matter.¹ For the reasons set forth in that filing, WCA believes that adoption of the proposed rule amendments will optimize the 57-64 GHz band for provision of facilities-based, competitive multi-hundred megabit and multi-gigabit broadband services without changing Part 15’s technical parameters for the spectrum. WCA therefore respectfully urges the Commission to issue a *Notice of Proposed Rulemaking* on WCA’s Petition as soon as

practicable, so that the marketplace may receive the benefits of the requested rule changes in the near term.

Respectfully submitted,

THE WIRELESS COMMUNICATIONS
ASSOCIATION INTERNATIONAL, INC.
