Re: Unbundled Access to Network Elements, WC Docket 04-313;  
CC Docket 01-338

Dear Ms. Dortch:

At the request of Commission staff, BellSouth is filing this letter to correct two data points in the information we provided in an ex parte letter dated December 7, 2004.

In that previous letter, BellSouth provided, at the staff's request, information on the number of business lines served and number of fiber-based collocators for each of its wire centers. Subsequent to that filing, BellSouth identified 2 wire centers (out of the 1,586 listed) for which it reported an incorrect number of fiber-based collocators. The correct information should be as follows:

<b>Wire Center</b>	<b>Total Business Lines</b>	<b>Number of Fiber based Collocators</b>
CLLI 0288	8,326	2
CLLI0418	5,334	1

While these corrections should have no impact on any statistical analysis of the overall information provided by BellSouth, we are filing this letter to ensure an accurate record.

Accordingly, please include this information in the record of the proceedings identified above.

Sincerely,

A handwritten signature in black ink, appearing to read "Glenn T. Reynolds". The signature is fluid and cursive, with the first name "Glenn" and last name "Reynolds" clearly distinguishable.

Glenn T. Reynolds

Cc: Ian Dillner
