Marlene H. Dortch, Secretary
Federal Communications Commission
Washington, DC 20554

Dear Ms. Dortch:

Radio Lake Placid, Inc. ("Placid") has previously advised Champlain Communications Corporation ("Champlain") that Placid consents to a change in the channel allotment of WRGR(FM), Facility ID 56078, Tupper Lake, NY, to specify operation on Channel 271, with a reference point (for purposes of Section 73.207(b) of the FCC's Rules) of 44° 09' 30 " north latitude, 74° 28' 21" west longitude. This consent was given in connection with a pending petition for rule making to upgrade WLFE-FM to Channel 272C3 and to change the WRGR allotment to Channel 271C3. Placid also previously stated that if Champlain's rule making proposal is granted, Placid will promptly file an application for a construction permit to implement the channel change and will construct facilities authorized pursuant to that application.

Subsequently, Placid filed an application to upgrade WRGR to Channel 272C3 rather than Channel 271C3, File No. BPH-20040809AAF. Placid hereby states that if Champlain's rule making proposal is granted, and the WRGR allotment is changed to Channel 271C3, Placid will either dismiss its pending application for Channel 272C3 or will file a major amendment to specify operation on Channel 271C3.

It is Placid's intention to upgrade WRGR on one channel or the other, but Placid does not intend to pursue a counterproposal in the rule making. Placid supports the rule making petition and will move WRGR to Channel 271 when and if that change is authorized.

Very truly yours,

Edward S. Morgan
President
