

please dont weikin the wisconsin do not call list. i feel it is a
real convience savor beacause it means no telamarketers will be
calling us at odd hours of the day like during must see tv or when
we are sitting down to a meal. a national assoton of banks whants
to over ride the no call list beacause thay just whant to talk to
us. but there doing is not seeing things frome our point of view.
there just bussnes people doing normal bussnes practices (like
telamarketing) when this gets disrupted thay will monuver around
it. witch sucks please do what ever you can to make the curent plan
for the no call list say in place it is a bout time we told
telamarketers whos boss and that millian of americans and that of
wisconsin dont like it when we get aneing phone calls frome those
creeps (the tellimarketers that is).
