

I understand that you have been asked to effectively change Wisconsin's "No Call" provisions so that they coincide with the Federal requirements. Please do not do so!

I understand that one of the arguments is that it's too hard to keep track of all of the different states' requirements - - I'm sorry about that - there are many, many differences amongst the states that businesses have to deal with all of the time - - this is probably one of the easier ones to deal with. An example of one that is much more complex is state sales taxes - they seem to deal with that just fine. Maybe the answer is to change the Federal requirements to match Wisconsin's no call provisions!!
