

In agreement with the State Attorney General Steve Carter, we wish to lodge our complaint against the CBA's attempt to weaken the 'no-telephone' list to include banks, charge cards, and other institutions with which we currently have a business relationship. These institutions are supposed to be permitted to contact us unsolicited by us for an 18 month trial period. We object to this change in the no-contact law, as we are fully capable of contacting the companies with whom we do business as a personal need arises.
