**Subject:** COMI Ordinances

Dear Ed and Bruce:

Thank you for meeting with us yesterday regarding the FCC's RF Emissions proceeding. As a follow up on our discussion, the COMI model ordinance was developed by a consulting firm, the Center for Municipal Solutions (Monroe Telecom Associates and Comi Telecommunications Services). Their website is located at <http://www.telecomsol.com/home.html> and offers information on how municipalities can control the construction and siting of wireless telecommunications towers and facilities ([http://www.telecomsol.com/slide\\_show/Slide\\_Show\\_files/frame.htm](http://www.telecomsol.com/slide_show/Slide_Show_files/frame.htm)), the scope of what communities can control, including RF interference and verification of compliance with FCC's RF Emission Standards ( [http://www.telecomsol.com/24\\_items.html](http://www.telecomsol.com/24_items.html)), and the need to update municipal ordinances (<http://www.telecomsol.com/needtorevise.html>).

If you need any additional information or have further questions, please feel free to contact me.

Sincerely,

*/s/ Andrea Williams*
