

Notice of Oral *Ex Parte* Presentation

February 25, 2005

Ms. Marlene H. Dortch
Secretary
Federal Communications Commission
445 12th Street, S.W.
Washington, DC 20554

Re: In the Matter of
Unlicensed Operation in the 3650-3700 MHz, ET Docket No. 04-151;
Additional Spectrum for Unlicensed Devices Below 900 MHz and the 3 GHz
Band, ET Docket No. 02-380; and
Amendment of the Commission's Rules With Regard to the 3650-3700 MHz
Government Transfer Band, ET Docket No. 98-237.

Dear Ms. Dortch:

On February 25, 2005, Michael Chartier and Marjorie Dickman of Intel met with Julius Knapp, James Schlichting, Alan Scrimme, Gary Thayer, and Geraldine Matisse of the Office of Engineering and Technology, and Scott Delacourt, David Furth, and Nese Guendelsberger of the Wireless Telecommunications Bureau regarding the above proceedings.

In the course of this meeting, Mr. Chartier expressed Intel's continuing concern that the 3650 to 3700 spectrum, especially in the affected MSAs, should be licensed on an exclusive basis to foster efficient use of this spectrum for long range applications. He stated that the best way to foster long range, wireless broadband deployment in areas where congestion is likely is to provide the protection for QoS and business certainty afforded by exclusivity.

Mr. Chartier also stated that the goal of expediting wireless broadband deployment could be advanced by permitting rural applicants to apply for site licenses outside the MSAs during a window before the auction was held. Applications could be granted on a first come basis subject to meeting reasonable build out benchmarks. Alternatively, the spectrum outside of the MSAs could be made unlicensed.

Pursuant to Section 1.1206 of the Commission's Rules, 47 C.F.R. § 1.1206, a copy of this submission is being provided to each of the above parties. Please contact the undersigned with any questions in connection with this filing.

Respectfully submitted,

/s/ Marjorie J. Dickman
