

I believe that allowing cell phone use aboard aircraft in flight to be a disastorous idea. To start with there is no hard evidence that cell phone use does not interfere with navigational instruments. Second, cell phone use would enable terrorists to coordinate a plan of action more effectively. The NPRM would leave it up to flight attendants to police the use of cell phones onboard the aircraft compromising our ability to maintain a safe, secure cabin environment and to conduct emergency evacuations. It would make an already tense cabin environment even more stressful.
