

I am writing to urge to you to stop phone companies from being tax collection agents. My last phone bill was 40% taxes -- sure, they are called fee for this and fee for that but the fucking Congress critters can fucking go to hell but in the meantime it is about time that the phone companies remember that the customer is always right and the government, regardless of which of the two fucking parties is in power, is always wrong. Goddamned parasites. Motherfucking goddamned parasites. And so forth. Anyone with a brain or, for that matter, an adding machine knows this.
